

## Errata\*

Figure 1.1 Crisis trajectories by economic crisis type, OECD and G20 member countries, 2007–17

\*) The shading in this graphic has been corrected to show that Finland experienced an unemployment crisis in 2015, and Portugal an unemployment crisis in 2013, rather than a debt crisis in the respective years, as originally appeared in Figure 1.1 (p. 17) of *The Governance Report 2018*.
