

Vision for Future of Healthcare

Call for Applications

Present your vision of the future of healthcare in one of six Pecha Kucha Slots at the Conference in New Delhi on 18 October 2022

1

Apply for slot

What is your vision of future health? It could either encompass the entire health system or focus on specific aspects of care. It could also be a vision of the future role of patients, doctors or hospitals.

Present your vision of future health in a meaningful application (e.g., abstract and your CV) and send it to future-health@hertie-school.org by **31 July**

Selected abstracts will have to be presented in Pecha Kucha format at the conference in New Delhi.

3

Present your vision at the conference in New Delhi

Selected presenters will give a Pecha Kucha on their future vision at the "Future of Healthcare" conference on **18 October** in New Delhi.

Each presentation will get a slot of 30 minutes (6:49 minutes for the Pecha Kucha, 20 minutes for discussions with the audience).

2

Jury review

A jury of digital health and health policy experts from India and Germany will review the applications and select the six visions to be part of the conference programme.

Applicants will be notified of the final selection by **15 August**.

Pecha Kucha is a great story-telling format in which 20 slides are shown for 20 seconds only. Slides are set to automatically move forward after 20 seconds. An additional title slide is permitted to allow presenters to start the countdown themselves. A Pecha Kucha therefore takes exactly 6:40 minutes.
